THE APOLOGIST'S CREED

I believe in Warren the Judge Almighty, maker of Truth and fiction and in his only assassin, Lee Harvey Oswald, our Lamb and Scapegoat, who was born of the Virige Marguerite, suffered under Marina Oswald, shot dead by Jack Ruby and the Dallas police and buried. Since then the Lone Assassin has risen again, rides again, descended into Texas to bump off witnesses, and ascended into Washington, where he sits at the left hand of Warren the Judge Almighty. From thence he does come to judge the critics, the doubters, and Jeanne Dixon.

I believe in Oswald's Ghost, the holy FBI, the destruction of evidence, the intimidation of witnesses, the infallibility of "probative" findings, the falsification of history and the lie everlasting. Amen.
